

# Leadership Through Technology

**Bengal Industries** also manufactures Stainless Steel Annular Corrugated Flexible Hoses, hose assemblies and fittings. Only hose manufacturer in India to receive the "CE" certification from DNV, Norway for Design, Manufacture and Testing of stainless steel corrugated flexible hose assemblies under pressure equipment directive of European Council 97/23/EC.

The manufacturing range varies from 6mm to 250mm Nominal Bore i.e. 1/4" to 10" NB. The stainless steel grades include SS 321 and SS 316-L hoses (with or without braid). Bulk hoses and finished hose assemblies (threaded, flanged, couplings and special, rings) form a regular part of our production. The hoses made by us conform to BS-6501 (Part-I) 1991 and ISO-10380:2003.

The end connections are TIG Welded / Brazed by our welders approved by Lloyds register / DNV.

Welding procedures and welders are qualified as per ASME
